PUPLICATIONS

INVESTIGATING E-LEARNING BASED ON WEB2 USING A MEMTIC EVOLUTIONARY ALGORITHM
Sargazi Moghadam T., Rahati A.
The 5th Conference on Information and Knowledge Technology
At: Shiraz-Iran ,Sunday, May 26, 2013

RESEARCH SUMMARY

Nowadays, the application of information technology is a vital part of our daily life. People around the globe use billions of mobile devices daily and spend more times on using these digital devices than ever. Sharing our opinions in social networks, searching the web, twitting, purchasing online products, participating in online polling and many other digital aspect of our lives leave behind a tremendous digital footprint. On the other in the last years, the impulse carried out by the so-called Web 2.0 has involved also the e-learning field where new trends are rising. Tools like Blogs (used to share ideas), Wikis (used as a way to construct knowledge in a collaborative way), Podcast (used to distribute multimedia files over the Internet) and other Web Sharing Applications (e.g. Flickr, YouTube, del.icio.us, etc.) allow Internet communities to work, teach, learn, conduct business, etc. Learning is essential for anybody for all of the times and our team would have created a new E-Learning system that it using artificial intelligence and create a new education system that this system could create personality educate according to a person's emotional.
