Course:

Technical & Special English for the student of engineering I & II

Credits: 2

Source: Manoocher Haghani & Sadegh karimpooli

Main Objectives:

The proposed source aims to introduce technical English skills to students. Therefore, the major focus is on technical terms & words and how they are employed in the structure of special texts. Students are expected finally to be able to read text and analyze their technical meanings. Besides, it is needed for them how to use special text's dictionaries to approach words from different perspectives and discover the meaning(s) hidden in the phrase/sentences.
