

# English for the Students of Statistics

## Some Important Statistical Words

### Table of Contents

#### 1 Fundamentals of Statistics, Introduction

Some Basic Words of Statistics

Population

Sample

Parameter

Statistic, Statistics

Variable

The Branches of Statistics

Descriptive Statistics

Inferential Statistics

Sources of Data

Published Sources

Experiments

Survey(s)

Sampling Concepts

Systematic Sampling

Probability Sampling

Simple Random Sampling

Frame, chart

Sample Selection Methods

Sampling with Replacement

Sampling without Replacement

Sampling Estimator

Parametric Statistics

Nonparametric Statistics

Semi Parametric Statistics

## **2 Presenting Data in Charts and Tables**

Presenting Categorical Data

The Summary Table

The Bar and Pie Chart

The Pareto Diagram

Presenting Numerical Data

The Frequency and Percentage Distribution

Histogram

The Dot Scale Diagram

The Time-Series Plot

The Scatter Plot

Misusing data

Misusing Graphs

## **3 Descriptive Statistics for Numerical Variables**

Cross tabulation

Cross validation

Frequencies

Relative Frequencies

Measures of Central Tendency

The Mean, the Median, the Mode, Quartiles

Measures of Variation

The Range

The Variance and the Standard Deviation

Standard (Z) Scores

Shape of Distributions

Symmetrical Shape

Left-Skewed Shape

Right-Skewed Shape

The Box-and-Whisker Plot

Important Equations

#### **4 Probability**

Getting Started with Probability

Event, phenomena

Elementary Event

Random Variable

Collectively Exhaustive (perfect) Events مجموعه كامل يا مرجع

Some Rules of Probability

Assigning Probabilities تعيين احتمالات

Classical Approach

Empirical Approach

Subjective Approach

Statistical Methods

## **5 Probability Distributions**

Probability Distributions for Discrete Variables

Discrete Probability Distribution

The Expected Value of a Random Variable

Standard Deviation of a Random Variable ( $\sigma$ )

The Binomial and Poisson Probability Distributions

The exponential Distribution

The Poisson distribution

Continuous Probability Distributions

Normal Distribution

Using Standard Deviation Units

Finding the Z Value from the Area under the Normal Curve

The Normal Probability Plot

## **6 Sampling Distributions and Confidence Intervals**

Sampling Distributions

Sampling Distribution of the Mean and the Central Limit Theorem

Sampling Distribution of the Proportion

What you need to know about Sampling Distributions

Sampling Error and Confidence Intervals for the mean

Confidence area Estimate

$t$  Distribution

Confidence Interval Estimation for the Proportion

Central limit theorem

Chance Theory

Game theory

## **7 Fundamentals of Hypothesis Testing**

The Null and Alternative Hypotheses

Hypothesis Testing Issues

Test Statistic

Practical Significance versus Statistical Significance

Decision-Making Risks

Decision theory

Type I Error

Type II Error

Risk Trade-Off

Performing Hypothesis Testing

The  $p$ -Value Approach to Hypothesis Testing

$p$ -Value or Significance values

Types of Hypothesis Tests

Number of Groups

Number Theory

Relationship Stated in Alternative Hypothesis  $H_1$

Type of Variable

## **8 Hypothesis Testing: $Z$ and $t$ Tests**

Testing for the Difference between Two Proportions

Testing for the Difference Between the Means of Two Independent Groups

One sample  $t$ -test

Two independent samples  $t$ -Test

Pooled-Variance  $t$  Test

Pooled-Variance  $t$  Test Assumptions

The Paired  $t$  Test

## **9 Hypothesis Testing: Chi-Square Tests and the One-Way Analysis of Variance (ANOVA)**

Chi-Square Test for Two-Way Tables

One-Way Analysis of Variance (ANOVA)

Testing for the Differences among the Means of More Than Two Groups

One-Way Analysis of Variances ANOVA

Multivariate analysis of variance (MANOVA)

Multivariate analysis of covariance (MANCOVA)

Two-Ways ANOVA

The Three Variances of ANOVA

ANOVA Summary Table

One-Way ANOVA Assumptions

## **10 Regression Analysis**

Basics of Regression Analysis

Regression Assumptions

Regression Equations

Simple Linear Regression

Multiple Linear Regression

Nonlinear Regression

Logistic Regression

Determining the Simple Linear Regression Equation

$Y$  intercept or constant

Slope

Least-Squares Method

Regression Model Prediction

Measures of Variation

Regression Sum of Squares (SSR)

Error Sum of Squares (SSE)

Total Sum of Squares (SST)

The Coefficient of Determination

The Coefficient of Correlation

Standard Error of the Estimate

Residual Analysis

Evaluating of the Assumptions

Inferences about the Slope

$t$  Test for the Slope

Confidence Interval Estimate of the Slope

Common Mistakes Using Regression Analysis

Nonlinear Regression

Logistic Regression

Polynomial Regression

Weighted Regression

Ridge Regression

Forward, Backward, Stepwise Regression

## **11 Quality Applications of Statistics**

Quality Control

Total Quality Management

Six Sigma Management

Special or Assignable Causes of Variation

Chance or Common Causes of Variation

Control Limits

The Parable of the Red Bead Experiment: Understanding Process Variability

Variables Control Charts for the Mean and Range

## **12 The new methods in statistics**

**Statistics:** Mathematical Statistics, Insurance statistics, Social Statistics, Economic Statistics, Biostatistics

Data sciences

Data mining

Machin learning

Deep learning

Modern statistics

Neurological methods

Introduction to Statistics with Randomization and Simulation

Exploratory data analysis

Statistical Inference and Bootstrapping

Modern Analytic Methods

Dimension of the matrix

Bayesian analysis

Bayesian methods

Ethics in statistics

Data Engineering Terminology

Data Governance

Business Intelligence Terminology

Artificial intelligence terminology (هوش مصنوعی)

Data Science Related Terminology

Diagnostic Analytics تجزیه و تحلیل تشخیصی

Predictive Analytics تجزیه و تحلیل پیش بینی

Data Visualization تجسم داده‌ها

Decision Intelligence Terminology اصطلاحات هوش تصمیمی

Management Science of data

Social Science

Data Culture

Statistical literacy سواد آماری

Big data:

1. Structured
2. Unstructured
3. Semi-structured
